PROVES TOM KENDALL WAS MURDERED

DALTON'S ASSESSMENT IS AGAIN UNDER FIRE

Assessor is Accused of Juggling With Figures and Favoring a Large Corporation

EDITOR TRIBUNE: Henry P. Dalton yesterday attempted to answer the criticism that in 1909 he had collected over \$20,000 in personal property taxes from concerns having sufficient real estate to secure the payment of this tax as pocketed \$100,000 worth of common stock when the assessments should have been turned over to the tax collector for collection without cost to the company. He fails to go to the bottom and give figures in defense of his action. He makes a few excuses. The fact is that Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law.

Very Weak Defense

Editorial reference to represents conditions under seven concerns only in the city. Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law.

Telephone Assessments

With reference to the telephone assessments Dalton claims that he did assess these corporations for 1902 for \$4,000 and in the morning Examiner says that the company's books show this assessment.

DALTON REPLIES TO THE CHARGES OF HANSEN

EDITOR TRIBUNE: Hansen's charges against Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law. Dalton's assessments are under the law and the courts are under the law.

X-RAY IS USED TO FOLLOW COURSE OF SHOT

Two Operations Will Be Necessary in Case of Gotham's Mayor.

GALLAGHER CLOSELY WATCHED BY POLICE

Will Face Court as Soon as the Outcome of Mayor's Wound Is Known.

EASY NIGHT PASSED BY INJURED MAYOR; TEMPERATURE HIGH

NEW YORK, Aug. 10.—Mayor Gaynor was resting comfortably at 1:30 this afternoon and there was no appreciable change in his condition. The physicians hope that an operation will not be necessary. Dr. Parsh, the family physician, is constantly in attendance.

NEW YORK, Aug. 10.—The condition of Mayor William J. Gaynor, who was shot and seriously wounded yesterday by a discharged city employee, is regarded as encouraging this morning, although it continues to be a source of great anxiety.

Mayor Gaynor was transferred this afternoon to a larger and lighter room in St. Mary's Hospital. The wounded executive was strong enough to raise himself in bed with one hand.

Dr. Arlitz, one of the attending physicians on Mayor Gaynor, issued the following bulletin at 3:55 p. m.

"The Mayor is resting comfortably and the physicians in attendance having nothing to add to bulletin issued this morning, a consultation of physicians will be held at 8:30 o'clock this evening."

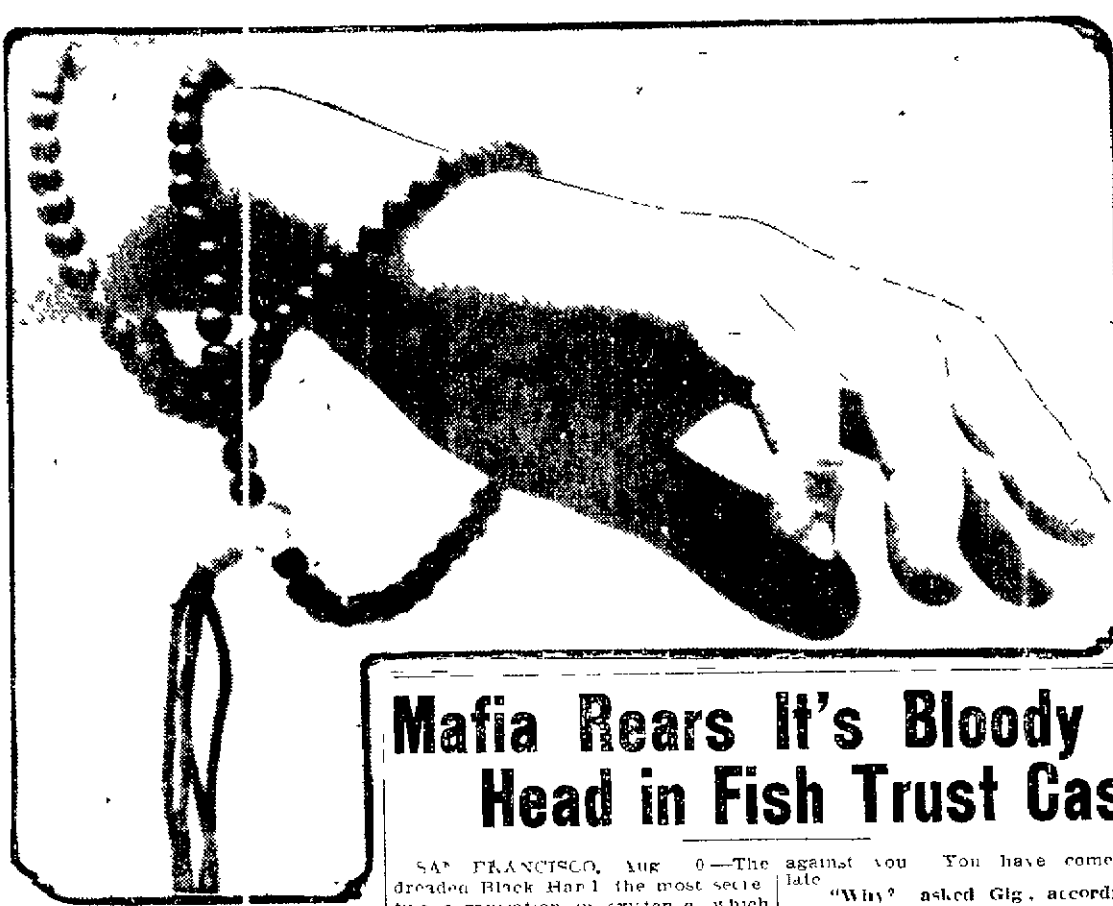

Chief of Police investigating the story of a man named Dalton who informed Inspector Sullivan that he had shot Mayor Gaynor.

NEW YORK, Aug. 10.—The condition of Mayor William J. Gaynor, who was shot and seriously wounded yesterday by a discharged city employee, is regarded as encouraging this morning, although it continues to be a source of great anxiety.

Famous Ju Ju Beads, a Japanese cure for all sorts of evil, worn by Mrs. Starbuck and given by her to a young lady friend in Oakland

JU JU BEADS CHASE AWAY SICKNESS

Black Seeds Worn by Mrs. Starbuck Are Sacred Among Japanese

Here are the famous ju ju beads sacred to the Nipponese and followers of Buddha, as worn by Mrs. Starbuck on her neck and arms.

The beads, or seeds, afforded Mrs. Starbuck relief from many ills, according to her husband, refreshing her and acting as a cure as they have done for centuries in Japan.

Between the German seeds and the Japanese ju ju there is little difference. "The seeds from Nippon are polished," declared Starbuck today, "while the others retain their dull color. Both were used by Mrs. Starbuck. She derives more benefit from those of Germany. They have accomplished much good or my wife, and I have worn them myself. They contain electricity, the Japanese claim, and are looked upon in the brown man's country as something almost sacred."

A string of ju ju seeds represent 108 worldly passions, the two larger beads standing for a bond of sympathy and righteousness, the entire lot designating faith.

NEW YORK, Aug. 10.—The condition of Mayor William J. Gaynor, who was shot and seriously wounded yesterday by a discharged city employee, is regarded as encouraging this morning, although it continues to be a source of great anxiety.

Aviator Fatally Hurt in Aeroplane

Walter Brookings Will Die of Injuries; Tried to Save Lives of Others

ASBURY PARK, N. J., Aug. 10.—Walter Brookings, the aviator who was fatally injured today while making a landing in his aeroplane, died at 11:30 a. m. today.

Mafia Rears It's Bloody Head in Fish Trust Case

SAN FRANCISCO, Aug. 10.—The dreaded Black Hand, the most secret and dangerous organization in existence, which has many times cast fear into the hearts of the timid and has wreaked vengeance, has been exposed and under unforeseen conditions has crept into the proceedings in the fish trust case being heard before Superior Judge Hunt. It developed that when the Portland Fish Company was anxious to secure a fish and other food from the firms composing the trust they were told that they must go to the president of the Mafia. This is one of the most mysterious secret organizations and the circumstances leading to it being made an issue in the case are of more than passing interest.

70-Year-Old Heiress Is Married To Youthful Assyrian Salesman

CHICAGO, Aug. 10.—Miss Mary B. Train, who gave up her \$200,000 fortune for home and a life of poverty, was married today to a 25-year-old Assyrian salesman.

PUNJAB HORDE PRETTY GIRL MAY BE VICTIM OF FOUL PLAY

LAHORE, August 10.—A horde of Punjab Mohammedans and Sikhs, who are long for the Hindu king with the avowed intention of proceeding to Calcutta, are organizing a demonstration of 10,000 men.

DENTIST GIVES PROOFS OF CAZADERO DEATHS

Oaklander Identifies Jaw Bone Found on Farm as That of the Son.

BLOOD-STAINED CLEW DISCOVERED IN ALAMEDA

Package Containing Soiled Shears and Cap Left in Saloon by Japanese.

At last the Kendall murder mystery is on a logical basis for solution by the authorities. Today Dr. Charles B. Goodman, a dentist of this city, positively identified the jawbone of Thomas Kendall by means of fillings which he had put in the man's teeth. This portion of Kendall's body was found deep in the woods back of the Cazadero ranch, where the murderer had evidently thrown it in the hope of its being lost.

Enoch Kendall and his son Thomas are officially dead since the granting of letters of administration in Santa Rosa yesterday by Coroner Blackburn by Judge Seawell.

It is now likely that the authorities will go ahead with the official inquest on the bodies.

It is not believed that the police of Oakland, San Francisco nor any other city in the State have any clues likely to result in the arrest of Yamaguchi, the Japanese suspected of the murder.

It is believed that in police parlance he has made a clear get-away and outwitted all the sleuths from the beginning to the end of the case.

Dr. Charles B. Goodman, a dentist living at 16 Kingsley avenue with offices at 1111 Washington street, positively identified the jawbone which was found in the woods back of the Cazadero ranch as that of Thomas Kendall when he was shown the bone in the office of Coroner Blackburn yesterday morning.

Deputy Sheriff David McIntosh of Santa Rosa brought the charred and broken upper jaw of the victim of the tragedy to Oakland this morning with the result that this positive identification of the bone was made by the Oakland dentist.

This is the first absolute proof that the bones found in the woods near Cazadero are those of the missing Kendall and is a positive proof that a murder has been committed.

WORKED ON TEETH

Before the coroner's inquest this morning the dentist went to the farm where the jawbone was found and carefully examined the work of the dentist. He found that the work was done by a dentist of this city.

TEETH KNOCKED OUT

The dentist who identified the jawbone of the victim of the murder, Dr. Charles B. Goodman, has had his teeth knocked out by a Japanese man.

Dr. Goodman is a dentist of this city and has had his teeth knocked out by a Japanese man.

Dr. Goodman is a dentist of this city and has had his teeth knocked out by a Japanese man.

(Continued on Page 2.)

THE BAY CITIES SUITS AND ITS DISPUTED TITLE

Its Promoter's Ignorance of the Sanitation of Storage Water; What U.S. Government Has Done to Make Water Safe and Sweet

The professional promoter of the Bay Cities Water Company in his last appearance in Berkeley, said:

"I want to say to you tonight that the Bay Cities' right to the Mt. Hamilton section are so well recognized that the company has been able quickly to raise \$15,000,000 to build the new water system."

The new water system centers on Coyote creek and, diverting to that channel, flow from the Mt. Hamilton watershed, which belongs to the Spring Valley company.

On August 6 the following news dispatch was sent by the Associated Press from San Jose:

"BAY CITIES COMPANY

"LOS ANGELES, Aug. 6.—Judge Welch this morning denied the motion of the Bay Cities Water Company, which is the defendant in an action brought by the Hayes-Cheyenoweth company to restrain it from diverting the waters of the Coyote creek, to so amend its answer as to narrow the issue to its use of the surplus waters. Instead of the entire flow. The question of riparian rights involved was settled in a similar suit against the company a few years ago, when Superior Judge Rhodes decided against the company, which decision was subsequently affirmed by the Supreme Court."

TIED UP IN COURT.

So it seems that Coyote creek has been tied up by the Supreme Court as to its usual flow, and is about to be tied up as to its seasonal flow also.

The professional promoter in the same speech took up the subject of the sanitation of storage water, and on that subject said:

AS TO CHEMICALS.

"Some time ago the city chemist of Alameda found employees of the present company dumping in large quantities of sulphate of copper in Lake Chabot in this sanitation process. He took samples of the water at the outflow pipe at Lake Chabot and from mains in both the east and west-end sections thereof, and made a careful analysis thereof, finding copper in solution in the water at these points. As copper is a cumulative poison and competent authorities consider 1.5 parts of a million (15) copper as an amply sufficient to condemn water as a menace to the public health, this is one reason why the people of Alameda so quickly turned to the pure, unsanitized water of the Bay Cities Water Company for relief."

I have quoted the professional promoter in full in order to disclose fully the scientific sanitation of storage water, of just such water as the Bay Cities will furnish, if other owners and the courts will let it.

STORAGE WATERS.

Storage waters supply practically all the potable water used in American cities. The care and treatment of these waters have long been a problem to municipal and private ownership alike. We all remember that the water of the old Contra Costa Company used to smell badly and be very offensive. The cause was the growth in storage of minute plants, which decayed in the pipes and emitted offensive gas. This condition was common to water in storage everywhere and was the odium of water companies and the despair of water engineers. No remedy for it was found until it was discovered by Dr. George T. Moore. Dr. Moore is a graduate of Harvard, and for years has been director of the Laboratory of Plant Physiology in the office of the chief pathologist and physiologist in the Bureau of Plant Industry in the Agricultural Department at Washington. There poured into that department complaints about the stored water from all over the country. These will remind our people of what we used to endure here:

HORSES REFUSED IT.

From Massachusetts: "The odor is so bad it would be impossible to hold it in the mouth to taste it. Horses refused it and dogs fled from it."

New York: "Strong, fishy odor, very rank. Water smelled and tasted bad."

New Jersey: "Odor of the water could be detected a quarter of a mile away."

Indiana: "Water tasted like rotten wood or fish."

Kentucky: "The odor was so bad that we had to discontinue marketing streets and lawns."

Montana: "We spent \$1,000,000 in the last four years to keep our reservoir clean, but nevertheless the water is so bad that we have to shut off the supply from June to December."

These are selected at random and are typical of the complaints from all over the country.

This was the problem attacked by Dr. Moore. The vegetable growth that caused the trouble is common to all quiescent water, no matter what its source, if the sunlight reaches them. It is found today in ponds of mountain water in California as well as in reservoirs. After long experiment Dr. Moore discovered that sulphate of copper is a specific for the destruction of this growth, more sure than filtering, and absolutely safe. He tried it first on a 25,000-gallon reservoir of a municipally owned water supply in Kentucky, where the vegetable growth was dense and the water smelled like a pig pen. He applied the strong dose of one part copper sulphate to putting it in coarse sacks and towing them after a row boat that traversed the 4,000-gallon reservoir. It was applied by reservoir in all directions, until the sulphate was all dissolved. At the end of twenty-four hours the greenish hue of the water was gone, and at the end of the third day the water was clear, sweet and palatable.

NO TRACE OF COPPER.

Tested a few hours after the dose was applied no trace of copper was found in the water. It had disappeared by combination and precipitation. After this Dr. Moore treated reservoir after reservoir, with complete success. He sterilized a 600,000-gallon reservoir, part

IDENTIFIES JAW BONE AS THAT OF TOM KENDALL

Oakland Dentist Gives First Proof That Family Was Slain; Clue is Found in Alameda

may have concealed himself somewhere in the interior of the State and had committed suicide.

Bloody Clew Points Way to Yamaguchi

ALAMEDA, August 10.—A blood-stained cap, blood-stained scissors, a white shirt bearing a Japanese laundry mark, and wristlets ornamented with a brass fastener, on which were engraved the words "Aspire to better things," and which were left by an excited Japanese, bearing a striking resemblance to Henry Yamaguchi, the supposed slayer of the Kendall family at the Crescent Hotel, Park street and Encinal avenue, last Thursday evening, near midnight, are supposed to have bearing in the murder case and is the newest clew in the mystery on which the Alameda police are working today.

They believe that the man who came to the Crescent Hotel at midnight, and who asked for a drink at the bar, making a heavy exit after leaving the above named articles tied up in a newspaper package, may be Henry Yamaguchi. The cap came into the hotel at 11:45 o'clock. He asked for a drink and with shaking hand, swallowed a glass of whiskey. He then inquired at what time the next train left for San Francisco. Walter White, the bartender, answered that there was one at 11:55 o'clock, and the Jap went out of the hotel door.

LEAVES PACKAGE BEHIND.

He left the package on a chair in a dark corner. Noticing the bundle, White ran after him with it in his arm, but the Jap told him he would be back for it. He disappeared around the corner of Park street and Encinal avenue. He did not board the train, and this circumstance alone has led the police to believe that the suspect may have been in hiding in this city last Thursday night, and may still be lurking in one of the Japanese dwellings, shielded by his friends.

The words on the wristlets "Aspire to better things" may be one of the professed humane and mystical doctrines of Shintoism, which Yamaguchi was advocating, and which is thought to have caused the brutal death of three members of the Kendall family on the Cazadero ranch.

STAINED SCISSORS.

M. H. Hughes, proprietor of the Crescent Hotel, gave the police information this morning of the suspicious actions of the Japanese who came to the hotel and turned over the package of his belongings to the authorities. The cap, which is blue, and like that worn by a seaman, is covered with blood, and the scissors are also badly stained. A miniature battleship, fashioned like those of the Japanese nation, was in the package. There was also a piece of a band, a shoe horn and a Southern Pacific timetable. The white shirt, besides bearing a laundry mark, had the trade mark of the George T. Ide Company, an eastern firm. The size of the shirt was 15. Hughes said today that his bartender's suspicions were only partly aroused by the Jap's actions, and did not gain credence until he saw the photograph of the suspected Yamaguchi.

SURE OF HIS MAN.

"I am sure the Jap who came into the bar last Thursday night was the man for whom the police are looking," said White this morning. "I noticed that he was agitated and did not seem to know what to order. He inquired for whiskey in a shaky voice and gulped it down hastily almost choking. His face was

ATTORNEYS OF SOLDIERS FIGHT FOREST FIRES IN PARK

CALHOUN MAY GO TO JAIL TODAY

LIVINGSTON, Mont., Aug. 10.—Soldiers of Uncle Sam fought all last night to save one of the most beautiful playgrounds of the nation from devastation by fire. The drought-nurtured conflagrations which have been ravaging the Northwest yesterday invaded the Yellowstone National Park. From Bell Mountain came the news that the forest was ablaze. A pillar of smoke rising over St. Mary's gave the signal of a similar disaster. Still graver conditions were reported from southeast of Lake Yellowstone by smoke-grained couriers.

200 IN MARCH.

As quickly as orders could be given 200 regular soldiers stationed in the park were marching against the foe. That large areas of magnificent trees fostered as a part of the national forest reserve were doomed to denudation was apparent from the first, but the courage and discipline of the seasoned fire fighters eventually stopped the advance in the Bell and St. Mary's mountain fires, saving miles of woodland from destruction. The issue at Lake Yellowstone was not so easily decided. At the last word the fire was under control.

WASHINGTON, Aug. 10.—Fire conditions in the national forests have improved. A telegram received today by Assistant Forester Peter from Assistant District Forester Silcox at Missoula, Mont., in whose jurisdiction the situation has been most serious, reported that all the fires in his territory were now under control except those on the Clear Water and Coeur d'Alene rivers in Idaho. The federal troops from Fort Harrison and Missoula in Montana were co-operating with the range forces in fighting the flames.

Silcox estimates that about 200,000 acres had been burned over.

Forest officials here were unable to approximate the monetary loss with any degree of accuracy, because they are without definite information as to the extent of the burned over area. It is thought, however, that the loss will be heavy.

MILLINER DIVORCED.

SAN FRANCISCO, Aug. 10.—Mrs. Lela Newlin, a milliner, obtained a divorce in Judge Cabanis' court this morning from her husband, Harry W. Newlin, a stenographer for the Southern Pacific company. Charges of extreme cruelty, largely of a mental nature, were preferred by the wife.

Means is not known. Moreover, Judge Lawlor has changed the date of the order of commitment back to August 3, which it is thought is not the proper date, as only today were the papers drawn up.

None of the counsel for the defendants who are concerned in Judge Lawlor's contempt proceedings would make any statement for publication, and it has not been decided by them apparently as to whether they will go to jail. The county jail, of course, cannot receive them because of the quarantine, and if they are taken into custody they must go to the city prison. Judge Lawlor, when asked whether confinement in the city prison would constitute a service of the five days, or whether after being held there until the quarantine was lifted the attorneys would still have their sentence to serve in the county jail, declined to discuss the matter in any way.

Deputy F. J. Burke of the sheriff's office declared it as his belief that Judge Lawlor would hold back the commitments until the quarantine at the jail was over, but stated that if he received them he could not himself hold them back, but would have to serve them. At 4 o'clock this afternoon Chief Deputy County Clerk Davis declared that within an hour the commitments would be ready, and that his orders were to immediately turn them over to the sheriff.

WATCH POSLAM WORK

Results Are Seen After a Single Application.

Anyone wishing to test poslam the new skin remedy, for the rapidity of its action, should select a red spot or small part of a surface where the skin is excessively broken out. Poslam should be applied on this place at night and results noted in the morning by comparison with the surrounding skin, which has not been treated. Surprising results are seen, particularly when poslam is used for red and inflamed noses, fever blisters, pimples, rash, scaly scalp, itching feet, sunburn, etc. The beneficial action of this new healing agent in eczema, acne, psoriasis, hives, etc., etc., begins with the first application when all itching is stopped and continues until the skin is healed. These cases have been completely eradicated by poslam after other remedies were abandoned as ineffectual.

A special 50-cent package of poslam is prepared for minor uses and this, as well as the regular \$2 jar, is on sale by all druggists, particularly the Owl Drug Co.

A sample of poslam, which will afford a convincing test, will be sent by mail, free of charge, to anyone who will write to the Chugachey Laboratories, 82 West 23rd street, New York City.

GAS PIPE THUGS CLAIM A VICTIM

Hold-up Men Again Operate in San Francisco Streets; Soldier Felled.

SAN FRANCISCO, Aug. 10.—"Gas pipe" thugs have again commenced operations in this city and today found a victim in the person of Private Edward Drayer of the Sixty-seventh company, Coast Artillery, who was beaten into unconsciousness in broad daylight near the corner of Twenty-fourth and Kansas streets, robbed of his valuables and left lying on the sidewalk.

Drayer had been drinking during the evening, and early this morning changed a \$10 gold piece in a saloon on Kansas street. He believes he was observed and followed by two men who were in the place and who came up behind him as he was passing a vacant lot.

Without warning, the truck at him from the rear and he felt like a log to the pavement. The robbers then took between \$40 and \$50 in cash and his gold watch and chain and made their escape.

Dr. Jacobs, who examined Drayer's injuries, said they were caused by a heavy bar of iron. The victim is expected to recover and has been removed to the Presidio general hospital.

Two Kendall Men Are Declared Dead

SANTA ROSA, Aug. 10.—Thomas Kendall and Enoch Kendall, two men believed to have been murdered on the ranch at Cazadero, were declared legally dead yesterday by Superior Judge Sewell upon testimony presented chiefly by District Attorney Lea and Coroner Frank L. Blackburn, the latter acting for letters of administration on the estate, which consists of the ranch near that belonging to the Starbuck and some improved property in Berkeley.

The 230 acres in the hills is the property which Collins went to see when he left the time pinned upon the door of the Kendall ranch house not knowing they would never return to take possession.

Attorney J. P. Berry, representing the petitioner for letters of administration, introduced the testimony of William F. Cowan, who represented Kendall in his litigation with the Starbuck. He stated further that he had every reason to believe that the family had disappeared from the face of the earth and that they had been done away with by a Japanese known as Yamaguchi.

Bones Pronounced Those of 3 Persons

SANTA ROSA, Aug. 10.—The physicians appointed by Coroner Blackburn to make an examination of the human bones found in the vicinity of the Kendall home near Cazadero reported today that they were satisfied that portions of the bodies of three persons were included in the exhibit.

Pending their final report and the accumulation of additional facts bearing on the ranch house tragedy, no date will be set for the inquest.

Sherriff Smith returned today from his trip to San Francisco and Oakland, having obtained, it is said, new evidence of an important character.

The search for Henry Yamaguchi, the suspected Japanese, is being continued with vigor.

Made Administrator Of Kendall Estate

SANTA ROSA, August 10.—Special letters of administration were granted by Judge Sewell to Coroner Blackburn today to the estate of Thomas and Enoch Kendall, who were murdered on their Cazadero ranch.

Arthur Trosper, leader of the posse which has been searching the Starbuck ranch for the remainder of the week, was here today in consultation with District Attorney Lea. He left with instructions from Lea to continue the search with all possible vigor.

To Keep Up Fight in Big Will Contest

Attorney for Butters Heirs Declares He Will Continue Efforts to Break Document.

Attorney George W. Reed of counsel for the contesting heirs has reiterated his statements already printed in these columns on several occasions that the fight to break the will of the late Lucie B. Butters will not be abandoned.

The contest is set for August 30 and will be tried by a jury in the probate department of the Superior Court, Judge William S. Wells presiding, and is based upon the contention that infatuation for her husband had deserted her unbalanced Mrs. Butters' mind and that at the time she made her will she was mentally incompetent.

Speculator Arrested on Charge of Forgery

Arrested on advice from the Los Angeles police on a charge of forging the signature of John T. Hull of Lindsay, California, to a check for \$50, John Sassek a bookstomper operator, who until his flight from that city three weeks ago resided in Los Angeles, was taken into custody this morning and will be held in the city prison until the arrival of the detective from the south. He will be taken back to Los Angeles to answer the charge. The alleged forger was arrested at Washington and Eleventh streets by Police in Forest.

Apple Growers Hold a Congress in Illinois

ST. LOUIS, Aug. 10.—Growers of apples from all parts of the United States are attending the national annual convention of the American Apple Growers' association, which began here today. J. W. Stanton of Richview, Ill., president of the congress, presided. Prof. S. A. Forbes, entomologist of the University of Illinois, and Prof. C. E. Bassett, secretary of the American Federation of Horticultural Societies, Farmville, Mich., discussed the San Jose scale.

Work While You Sleep

Millions of people have CAS-CARETS do health work for them. If you have never tried this great health-maker, get a 10c box, and you will never use any other bowel medicine.

CAS-CARETS 10c a box for a week's treatment, all druggists. Biggest seller in the world. Millions boxes a month.

WAS IN HOSPITAL.

"Kano came back here and told me that he wanted money for his friend, who was in an Oakland hospital. I said to him, 'That man is Yamaguchi' and he said 'Yes, it is.' Then I told him that he should not shield a suspected murderer and that I was going to tell the police. He returned to the Alameda city of police and told him of the extreme anxiety, and yesterday he arrested Kano and informed him of the crime. I had told him previously, however, that Yamaguchi had left the Oakland hospital last Wednesday."

SUICIDE, THE MAN?

The police are also investigating the case of a Japanese whose body was taken from the bay at the Alameda mole about a week ago, and over whom an inquest was held and a verdict of suicide returned by a jury at the Alameda branch morgue. That this man may have been Yamaguchi, who went to his death after confessing his crime to follow countrymen, is the theory of the police.

The body of the Japanese, taken from the bay and \$20 in pockets of the clothing, was found in the city. Identified the body as that of a friend, and said for his burial expenses, it may be that of Jap. Henry Yamaguchi, which being shielded by friends and buried without disgrace.

sayings it is surprising how many old-fashioned remedies are being used which go to show that it is hard to improve some of our grandmothers' old-time remedies. For instance, for keeping the hair dark, soft and glossy, nothing equaling our grandmothers' sage tea has yet been discovered. Although the tradition of sulphur and other minerals (the old-fashioned "sage tea") is such, many people use a scalp oil and color restorer. Nowadays when our hair comes out or gets faded or gray instead of going to the garden or garden for herbs in making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Woeths Sage and Sulphur. This preparation is sold by all leading druggists for 50c a bottle. It is made by the Woeths Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

Talks on Teeth

—BY—
REX DENTAL CO.
 (INCORPORATED.)

CURING PYORRHEA

Very few dentists undertake to cure the dreaded Pyorrhea (Riggs disease of the gums). Various theories have been advanced by clever men in the profession as to the cause of this disease, and the theories do not all coincide, but in nearly every case they are a unit in saying that there is no cure for Pyorrhea once it obtains hold in the jaw. Those who have tried to cure this disease have subjected the patient to such torture that the cure in most cases has been worse than the disease, and in only a few cases could it be called a cure, even after cutting all the gums to get at the roots of the teeth.

A few years ago, when we announced that we had discovered a cure for Pyorrhea, we were laughed at—discredited—but we have worked so many cures in the course of our practice that we can no longer be laughed out of court. We must be reckoned with.

In our discovery of the Alveolar process of supplying missing teeth with teeth as solid and natural as those that nature gave you without the use of a plate, partial plate or so-called bridge work, we found that one of the first problems we must solve was the "loose teeth" problem, for we must have sound teeth to work on in order to make Alveolar teeth successful. We discovered, as we have said, a cure for the Riggs disease, and in so doing complete our discovery and made it practical. We have only to refer to the thousands of satisfied patients who have been cured in our offices of Pyorrhea to refute the statement made, even at this late date, that the disease cannot be cured.

If you are a victim of this disease and have loose teeth because of it, we want you to come to the nearest one of our offices and allow us to make an examination of your case, free of charge.

We are in every way responsible, and if we agree to work a cure, you may feel perfectly safe in allowing us to undertake the work. Our guarantee is ample.

If you will send for our book entitled "ALVEOLAR DENTISTRY," and read it, you will be willing to make any sacrifice in order to place yourself under the care of one of our skilled practitioners. Dentists who are able to do the work called for in these offices must be among the most skilled in the profession.

FAMOUS COMSTOCK MINE DESTROYED BY FLAMES

Best and Belcher Workings Are
 Totally Destroyed at Loss
 of \$30,000.

**\$60,000,000 PRODUCED
 DURING BONANZA DAYS**

The Fatal Fire in Consolidated
 Virginia of Years Gone by
 Is Recalled.

RENO, Aug. 10.—Fire of unknown
 cause originating between the ceiling and
 roof of the heisting works of the Best &
 Belcher mine on Gold Hill, two miles
 from Virginia City, totally destroyed the
 surface buildings causing a loss of
 \$30,000.

The fire which began about 11 o'clock
 last night was still burning at 1:30 this
 morning, and it is impossible to deter-
 mine whether it has penetrated the shaft
 and lower workings.

No men are employed in the shaft at
 night and only five in the day time.

OLDEST IN COMSTOCK.

The Best & Belcher is one of the oldest
 mines on the Comstock. It is situated
 near the Crown Point bridge at the
 south end of Gold Hill, and is known as
 one of the South End group. Recently
 mining activity has been limited and
 there has been considerable dissension
 among the stockholders and members of
 the directors.

The fire in the Consolidated Virginia
 mine in the middle seventies was recalled
 by the fire last night. That fire raged
 in the lower levels for several days.

The Belcher mine in its early history
 produced \$60,000,000 in bullion.

STEAMER STRIKES WITH 800 ABOARD

Passengers Disembark and
 Make Merry on Island Until
 Tide Rises.

SEATTLE, Wash., August 10. The
 steel steamer, Chippewa, grounded on
 Castle Rock at the southeast end of Lopez
 island at 11 o'clock yesterday morning,
 and after being held fast several
 hours was floated on the rising tide and
 returned with her 800 passengers to Bel-
 lingham.

Meager reports indicate that the dam-
 age to the Chippewa was not serious,
 but she will be docked on her arrival
 here today and a survey will be made.
 The Chippewa, which was carrying ex-
 cursionists from Bellingham and Anacortes
 to Victoria, B. C., struck the
 rocky shoal during a heavy fog. Reports
 received by the owner, the Puget Sound
 Navigation Company indicate that the
 Chippewa was carried out of her course
 by a strong tidal current. The heavy fog
 made it impossible to see one hundred
 yards ahead.

STICK IN KELP.

The pilot saw kelp in the water and
 signaled to reverse the engines, but the
 boat struck and held fast before she
 could be backed out of danger. The
 tide, which was going out, had but one
 foot to fall below low water and the
 ship's officers were confident they would
 be able to float the starch craft when
 the tide turned.

Although there was apparently no
 danger of the Chippewa's foundering,
 Captain William Thornton thought it
 best to be on the safe side and ordered
 all the passengers ashore. There was
 little confusion and all were safely off
 in the small boats and safely landed
 on Lopez island; here they held a picnic
 before re-embarking.

Captain H. Carter, the regular com-
 mander, was ashore attending the inves-
 tigation into the accident of last Tues-
 day night when the Chippewa ran down
 the wooden steamer Albion off West Point
 light, a few miles north of Seattle.

TAX OF SCHOOLS IS MADE PUBLIC

Rates for California Counties
 Given Out From Sacra-
 mento Office.

SACRAMENTO, Aug. 10.—School tax rates
 for the counties of the State, with the excep-
 tion of Imperial, San Diego and Tulare, have
 been prepared by Statistician Job Wood of Superin-
 tendent of Public Instruction Hyatt's office.
 Kern county, with a rate of 14 cents on the \$100,
 is the lowest. Mono county, with a rate of 50
 cents on the \$100, is the highest.

Society Awaits Move in Gambling Crusade

NARRAGANSETT PIER, R. I., Aug.
 10.—Society people are still waiting in
 suspense for the next move in the gam-
 bling crusade.

Prof. Brander Mathews, one of the
 men behind the recent raid, said last
 night:

"If the majority of the people who
 frequent this pier want gambling, they
 should petition the legislature for au-
 thority to establish an American Monte
 Carlo here, but as long as it is illegal
 I shall do my part to suppress it."

TALES OF SUNNY SOUTH TO BE TOLD BY SOUTHERN GIRL

MISS LOUISE A. WILLIAMS, Southern girl, who will tell stories of Dixie Land at Ebell Club Friday night.

Stories of the sunny South in which
 will be mingled pathos and humor will
 be told by Miss Louise A. Williams of
 Georgia, Friday evening, August 13, at
 the Ebell club auditorium.

Born in the heart of Dixie land, reared
 on sugar cane, hockaday, honey and
 possum, Miss Williams has a line of
 negro stories that will make her hearers
 see the cotton fields and hear the strum-
 ming of the banjo. It was from her own
 old black "mammy," as the Southern
 children's nurses are called, that Miss
 Williams learned many of the amusing
 and entertaining dialect stories of her
 people.

Miss Williams is well known on the
 Chautauque platform of the country. She
 is the daughter of a distinguished South-
 ern veteran. She is endorsed by the
 governor of Georgia under the seal of
 Georgia and also by antiragist letters
 from Judge Ben B. Lindsey of Colorado,
 Dr. Robert J. Durdette and Rear Admiral
 Robley D. Evans as to the picturesque
 realism of her portrayals.

During the evening Mrs. Rose Char-
 lotte Bobb, who possesses a soprano
 voice of rare sweetness of quality, which
 will lend itself to be old melodies of
 Dixie will be heard in the songs of the
 South. A number of prominent Oakland
 and Berkeley women are patronesses of
 the occasion. Among them are:

Mrs. Isaac Riqua, Mrs. Sam Bell Mc-
 Kee, Mrs. Susan Hay, Mrs. J. H. Nich-
 olson, Mrs. Oscar L. G. Mrs. A. S. Mac-
 Donald, Mrs. C. C. Clay, Mrs. Mark
 Requa, Mrs. W. W. Garthwaite, Mrs.
 Haven, Mrs. Edson Adams, Mrs. J. R.
 Knowland, Mrs. Rupert Whitehead, Mrs.
 Dornard Ransome, Mrs. George Whitney,

Thinks Vatican Will Abandon Attitude

PARIS, Aug. 9.—The Echo de Paris
 today prints from its correspondent
 at Madrid an optimistic interview with
 Garcia Prieto, the Spanish Minister
 of Foreign Affairs, in which the min-
 ister intimates that the Vatican is
 likely to abandon its present attitude
 and resume negotiations with Spain
 for the revision of the concordat.

The minister said, however, that he
 was ignorant of the fact if Cardinal
 Yves Y. Tuto, as reported, had made
 intercession with King Alfonso.

To the question: "Is the separation
 of the church and state the ultimate
 aim of the Spanish government?"
 Senor Prieto replied:

"We have not reached that point
 yet. Catholic Spain does not desire
 separation and Rome knows it."

Enjoy The Health And Strength Of Youth

Be strong and active in old age

Assist nature in restoring the vigor and energy of early life. As age advances, the recuperative powers of youth grow less, and then, more than at any other time, do you need

Pabst Extract

Combining the tonic properties of choicest hops and the rich food values of select barley malt, it is the very tonic for the weaknesses of old age. It fortifies the system against the many little ailments which healthy youth brushes aside and reinvigorates and gives new strength to the whole body. It aids the digestive powers and builds you up anew.

The United States Government has classified Pabst Extract as an article of food—pure, not an alcoholic beverage.

Order a dozen bottles from your local Druggist insist upon its being Pabst

MANY CHANGES IN ST. MARY'S

Instructors Leave to Take Up Work in Other Schools of Order.

A number of important changes have been made among the Christian Brothers, the religious order of instructors which for years has had charge of St. Mary's College and several other Catholic schools and academies in this city and vicinity. These changes have been ordered by Brother Zenophon, provincial of the order on the Pacific coast.

Brother Vivian, formerly director of St. Peter's school in San Francisco for several years but latterly of Peralta Park, Berkeley, has been appointed director of St. Anthony's school, East Oakland, succeeding Brother Felan, who has been appointed procurator of St. Mary's College in this city.

Brother Paul, director at Santa Cruz, has been appointed president of St. Vincent's Asylum, San Rafael. Brother Justin succeeds Brother Paul at Santa Cruz.

GOES TO ACADEMY.

Brother Velleian, who for the last six years has filled the office of president of St. Mary's College, Oakland, goes to take charge of St. Joseph's Academy, Peralta Park, Berkeley. His position at St. Mary's College is taken by Brother Florinus, director of Peralta Park, and for a number of years president of the Christian Brothers College, Sacramento.

Brother Lewis, president of Sacred Heart College of San Francisco, has been appointed director of St. Mary's College, in this city, and will be assisted by Brother Joseph. Brother Gregory succeeds Brother Lewis as president of Sacred Heart College. Brother Vantassian of Portland has been placed in charge of the business department of St. Mary's College here. Brother Edmund of St. Mary's College has been assigned to St. Peter's school, San Francisco, as director. Brother Ulbertian, for many years a member of the faculty of St. Mary's College, has been assigned to the Christian Brothers College, Sacramento. Brother Ulrich of St. Mary's College has been transferred to Portland.

Site Offered Baptists for Proposed College

SACRAMENTO, Aug. 10.—A 51-acre tract of farming land on the north bank of the American river between Fair Oaks and Orangevale has been offered to the Baptists of California as a site for the Baptist college. The owners of the Haggan grant property have also offered a site, and the location of the college will be decided upon at the Baptist convention to be held this fall. The college is now located at Oakland, but it has been decided to change it to some northern California point.

BARGAIN SEASON IN PIEDMONT LOTS A REAL ESTATE SALE OF REMNANTS

PHOTO SHOWING VIEW IN PIEDMONT NEAR WHERE THE REALTY SYNDICATE ARE SELLING SCATTERING LOTS AT \$25 & \$30 A FOOT.

Scattering Holdings of Realty Syndicate Offered at Unusually Low Prices in Order to Close Out All Odd Lots in the Piedmont District; Great Opportunity for Home Builders.

Judging from the prices being quoted by The Realty Syndicate on lots in Piedmont, this is undoubtedly the bargain season in the real estate business. The Syndicate has two or three hundred scattering lots in Piedmont which they are anxious to dispose of in order to enable them to take up the sale of some of their larger tracts.

Many of these lots are located in well-built up neighborhoods; some of them are lots which were turned back to the company at the time of the fire and earthquake, on account of the inability of buyers to complete their contract, while others remain from former tract sales. For a number of years no attention has been paid to these lots, and although Piedmont has in the meantime built up very rapidly, the Syndicate, busy with other things, have made no effort to sell scattered lots. Now, however, they have concluded to get them out of their books and are quoting prices that certainly appeal to the public.

"We are not surprised at the way the public are taking advantage of the prices we are quoting on lots in Piedmont," said Nat M. Crossley, manager of the real estate department of The Realty Syndicate, here today. "In fact, we would be greatly surprised if we did not sell them all. Everybody knows Piedmont to be one of the most desirable residential districts around the bay, and those familiar with realty values know that a great many of these Piedmont lots are being held by private owners at \$75.00 and \$85.00

A timely revival of "The Mikado"

by Victor Light Opera Company

The emphatic success which has attended the New York revival of this most famous of all the Gilbert-Sullivan operettas makes the issue of this brilliant potpourri most timely.

The Victor's fine organization has given no fewer than six of the favorite numbers; and they are not only admirably sung, but are grouped in a most attractive manner.

Gems from "The Mikado"

Victor Record 31789, twelve-inch, \$1

Famous Colored Boxer Died at Baltimore This Morning; Coffroth Matches Burns and Moran for Ten-Round Contest

AFTER having won his last battle, a race with death as he was rushed from Arizona to his home in Baltimore with the grip, monster constantly hovering over him, Joe Gans, former lightweight champion of the world and one of Astoria's most wonderful pugilists, died this morning of tuberculosis. It is not for us to say that Joe Gans had no faults, and we are not going to try to convey the idea that in death the wrongs a man does should be forgotten, but the faults of Gans were few, and withal he was a most likeable fellow and his virtues far overshadowed his faults. Gans was one of the most popular negro pugilists that ever pulled a foot into a ring, and this fact was owing to his extreme modesty, exceedingly good manners and gentlemanly conduct at any and all times. As a pugilist there are few who can boast a better record and there are experts by the hundred today who will say that Joe Gans was the greatest pugilist that ever pulled on a glove. Gans started boxing in 1891 and was in the game until 1909, making eighteen years of activity with the gloves. When Gans was climbing to the top of the ladder in the latter nineties and 1900 the lightweight division of pugilists was over-run with the classiest lot of pugs that has ever been identified with the game, and it was by no means an easy job climbing to the top. In 1902 Gans won the lightweight championship of the world by defeating Frank Erne in one round at Fort Erie, and he held the title until the Fourth of July, 1908, during which time he defended the title against any and all comers and many time went out of his class to get a match. Some of the most wonderful exhibitions of boxing the game has known of were performed by Gans when pitted against heavier men, and his easy manner of handling Abe Attell in a friendly exhibition at Alameda proved beyond any possible doubt that he was the cleverest man of his day with the gloves.

The first start of Gans toward broken health was brought about by the Nelson battle at Goldfield, when he was compelled to make 132 pounds at the time, aside with his fighting legs on. The making of that weight sapped the strength of the colored man and the long battle that followed proved a strain from which he never fully recovered. From that time on Gans gradually went to pieces, and in his second fight with the battle with Nelson he was but a shadow of his former self. Every man who has ever come in contact with Joe Gans liked him for, with all his gractness as a pugilist, he never forgot for a moment that he was Joe's pugilist and man of color. He will be gone today, wishing the great warrior who has passed on the mysterious beyond everlasting rest.

Frankie Burns and his manager, Jack Perkins, accepted the terms of Jimmy Coffroth for a ten-second no-decision contest yesterday afternoon and now Coffroth will stage as the main attraction in the main event of the fight at the Moran. Perkins and Burns have been anxious for this chance at Moran since the youngster came back from England, and when Coffroth refused to fight the Frenchman with the Englishman, Burns and Perkins got busy and succeeded in getting the chance. Burns is not in the least discouraged over his defeat, and he is confident that he will realize that the contest failed to prove the better man and he also knows the decision was a very close one. Burns is a boxer and a fighter, and he will have as a sparring partner Johnny Frayne, who is also at Whites' training camp preparing for another try at the lightweight of the future. This is the first time a better chance has been had the last time he was training, for at that time he did most of his boxing with middleweights. Burns has been here for a long time for the best in the business and his showing with Matty Baldwin in his last fight will warrant his having a chance to meet one of the top class of men as he is to enter the ring at 133 pounds, which is practically catch weight for both men.

Reports from New York this morning inform us that Ketchel has improved so

10

LOS ANGELES, Aug. 10.—The city at-

The following brief dispatch from the southern city was received this morning and it means much to the future of baseball on the Pacific Coast. With the re-

der of that decision the prismatic that makes his living gambling on ball games will flock to the various ball parks, intent upon betting "their heads off" feeling that they will be within the limits of the law.

It is up to the directors of the Pacific Coast League whether these men will be allowed to make baseball a betters' paradise. As for the San Francisco and Oakland directors, the writer has a fear that they will not. They are too fond of betting on ball games just as they have in the past. It is up to Los Angeles and San Diego to take the lead in these men and to put it on good and strict terms.

Henry Berry has the issue before him. The law says that it is legal to bet on ball games. The law also says that it is unlawful to bet on anything but a horse race. Berry says so. But there is court case on that says it is unlawful so let the courts decide. The writer has no doubts on a ball game in the past and vigorously prosecute him, just as Zwang and Graham did in the case of Charles

By BERT LOWRY.

the latter got himself into bad holes now and then through his inability to locate the plate. The other fellow, Moser, though, was good all the time and the fans were glad to see him win as long as there had to be a winner.

Carlisle, Hogan and Coy were the only

For games with Amicitias address

Moser and Brackenridge Pitch Excellent Ball, and All Runs Are the Result of Fozzles by Team Mates

IMMY LUCK was a big factor in yesterday's ball game between the Oaks and Hoeligans and after sitting first on one bench and then on the other he brought his charms into play and cast his lot with the lads from this side of the big water, the final score reading 'Oaks 2 Vernon 1. It was one of those peppery, gingery ball games for which the Coast League is getting justly famous, the finish coming in the eleventh inning after neither side had tallied a run for ten of these. Had Catcher Thomas held the ball in the first of the eleventh and prevented Carlisle from scoring for Vernon, and had Stovall caught Cutshaw's poke into center, as he should have done, the game might have gone on until dark. But these kind of fozzles are apt to happen any old time, and as it is runs, hits and errors make a ball game.

Moser and Brackeridge were in tip-top shape when they took the hill and the pitcher's box to slay the Yankees, going until the last moment. Behind these two the rest of the team played baseball in real baseball style, and every man on the lot went home feeling like a champion. The only sign of a bad game sitting down to cold cash and trimmings.

GREAT FIELDING CUT OFF

It was classy ball all the time, with flashy dashes of brilliant fielding all the way through. Time and again both sides showed the ability to make the most of what clever handling of the ball prevented.

Once in the third it looked "good night" for Brakenridge, for hits by Hogan and Maguire, and a sacrifice by Cameron, had bused. Cameron hit to F. Blasiger and the bases were loaded. Hogan then bled the runner down one to the second base.

But the Oakes pitcher, who had been out into center field and it looked like curtain's and the game against the Oakes was over, came back and threw a curve. Though the scorer was again generous in giving the credit to the Oakes pitcher, it was as palpable an error as has ever been made on a fly ball. Still, that has nothing to do with the game.

After the Oakes pitcher had thrown a two-base hit allowed Hogan and Maguire to reach base, the Oakes pitcher came to the Oakes. Here are the figures:

VERNON. HITS 3, RUNS 2, ERAS 0.

WASHINGTON STREET CORNER TENTH

OFFICERS ELECTED
BY OAKLAND CLUB

Big Improvement Organization
Selects Officials for the
Ensuing Year.

The Central Oakland Improvement club at its fifth annual election, held in Vander Naillen hall, elected the following officers: For president, L. A. S. Kelly, who is a member of the board of education, first vice-president, Professor C. W. Childs, former president of the Normal school, Peter Muller, second vice-president, Dr. J. S. Kinn, third vice-president, C. H. Pearson, secretary, P. Cassell, treasurer, O. N. Brown, sergeant-at-arms.

The executive committee is A. Vander Naillen, Dr. W. B. Thomas (cashier and president of the Telegraph avenue bank), P. Meyer, Dr. M. J. McMillan and P. Anderson.

Professor Childs introduced a resolution advocating the bonds for new school houses. He said in part that he and his wife had visited the new schools in the United States and many other schools, but never anywhere found where the schools were so overcrowded as our schools in Oakland were at the present time.

The club is planning to have a city park at the junction of Telegraph avenue and Elm street. The park is to be a city park and is to be a city park. The club is planning to have a city park at the junction of Telegraph avenue and Elm street. The park is to be a city park and is to be a city park.

GRAVENSTEIN APPLE SHOW

The first apple show in California will be held at Gravenstein, August 10, 11, 12 and 13. In addition to apple displays, Luther Burbank will display for the first time all his creations. Fair on the Northern end of Lake, Friday and Saturday, \$1.75 for the round trip, good for return until Monday. Leave San Francisco these days 7:45 a. m.

FLYING AIRSHIP AS
TARGET FOR SHOT

Rifle Expert Tells Difficulty of
Hitting Moving
Aeroplanes.

NEW YORK, Aug. 10.—General George W. Wingate of Brooklyn, who was for twenty-five years president of the National Rifle Association of the United States has been making a detailed study of airmen which an aeroplane would have in time of war against a corps of skilled sharpshooters. He sums up his conclusions in the following statement: "In shooting at an aeroplane which is moving with a rapidity probably exceeding that of a swallow on the wing and dashing up and down and suddenly changing its course in much the same fashion as a swallow does, to enable it to be struck by a bullet, the rifleman must accurately determine its distance, direction and speed."

DIFFERENT METHODS.

"This is so different from ordinary rifle shooting that only those riflemen who are familiar with the use of shot guns know how a rifle should be aimed in order to hit an object moving in the air and the sighting of a military rifle is so absolutely different from that of a shot gun that very few of those who should be able to hit a moving target can do it with any certainty. While I myself have often fired with a rifle at large birds flying, I can recall but one hit."

WORKS REFORMATION.

"The army is introducing shooting at moving objects with it, when carried out, will work a reformation in this respect. It will then, in aiming, the sights on the military rifles are simplified so as to permit it to be done properly. It must be a good while until any considerable number will become proficient. The ordinary soldier, however, should be able to hit a moving target with the sights which he is accustomed to use and in doing which he takes his time, as he does when it comes to the sport of hunting which is indispensable to him in shooting at birds and animals. The kind of shooting will find the latter difficult."

Burn Boy at Stake
As Seen in Picture

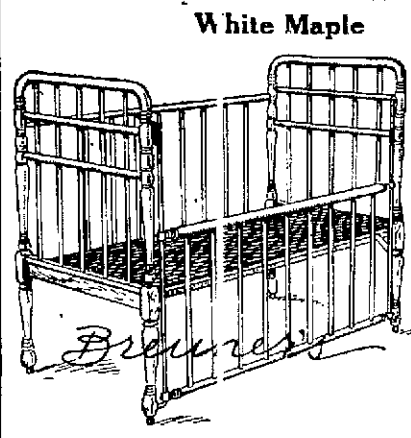

MENARD, Ind., Aug. 10.—To a moving picture show in a local theatre, depicting the burning of a white man at the stake by a mob of Indians, is attributed the serious injury of William Johnson.

William Johnson and other children of his own age were playing Indian it was found to him that the picture was a picture of the burning of a white man at the stake by a mob of Indians.

Gillett Will Open
Annual Apple Show

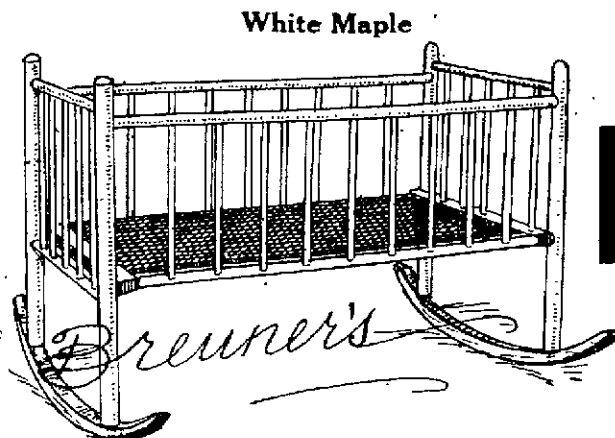

GRACIA, CAL., Aug. 10.—The first annual apple show will be opened here this evening by Governor J. N. Gillett, who will make an address of welcome. The fair is to be a pretty one, with many interesting features. It is to be a pretty one, with many interesting features. It is to be a pretty one, with many interesting features.

ROOM FOR DEATH
HIRED BY PARKER

Carefully Planned Suicide Ends
the Life of Well Known
Blacksmith.

Carefully planned and executed suicide ended the life of Robert Parker, a blacksmith, who left his home at 1015 Polaris street last Saturday, hired a room in a different part of the city and looking himself in, swallowed a lot of poison. His body was found dead in the bed in his rented room at 59 Kirkland street last evening by Mrs. M. Kiley, neighbor of the place, who surprised him when he had failed to make his appearance all day.

Mysteriously surrounded the strange act of Parker in taking his life. His family, who have been seeking the missing man since Saturday, knew of no reason for the act. He had evidently planned the suicide with care. A visit of sympathy to the place, who surprised him when he had failed to make his appearance all day.

The deceased leaves a widow, Mrs. Mary Parker, a daughter, Miss Allie Parker, and a son, Robert Parker, 10 years of age, and a daughter, Mrs. M. Kiley, 64 years of age.

CHURCH WORKER IN
JAIL FOR THEFTS

Houseman at Y. M. C. A. is
Arrested and Confesses
Stealing.

LONG BEACH, Cal., Aug. 10.—George Bird, former church worker and for several months houseman at the Y. M. C. A., was arrested yesterday charged with the theft of jewelry valued at \$400. He had been purchasing some time before, but according to the police, he had not yet been caught. He was arrested yesterday charged with the theft of jewelry valued at \$400.

Check Sent State for
Taking Care of Insane
Man Will Pay for Fun

DENVER, Colo., Aug. 10.—A check for \$250 was sent to the State of Colorado yesterday by a local attorney acting for an anonymous giver, who declared he desired to make what return he could for the care of a relative at the State asylum at Pueblo.

St. Luke's Richest
Hospital in World

NEW YORK, Aug. 10.—St. Luke's hospital in this city bids fair to rank soon as the wealthiest institution of its kind in the world. Gifts aggregating \$200,000 were received by the hospital last year and this year's total has just been received in an amount of \$100,000. The amount of a bequest of six thousand acres of valuable real estate left to the trustees of St. Luke's by Norman I. Reed, a leather millionaire, who died a few days ago.

TELEGRAPH FRANK
IS SOON TO PASS

Following Revocation of Rail-
road Privileges Comes the
Action by Wire Cos.

NEW YORK, Aug. 10.—Following the revocation of the railroad passes by which the interstate commerce law abolished several years ago, the telegraph companies announce that the telegraph franchise privilege is soon to be withdrawn from many of those who for years have enjoyed it.

Soda Bottle Explodes;
Flying Glass Cuts Man

SAFETY, CAL., Aug. 10.—The explosion of a soda water bottle in the saloon at Golden Gate avenue and Occavilla street caused painful injury to George F. Jones, 34 McAllister street, who received ugly cuts. He was treated at the Central Emergency hospital.

5 AUTOMOBILISTS
INSTANTLY KILLED

Express Train Crashes Into
Machine, Hurling Occupants
to Horrible Death.

CAPE MAY, N. J., Aug. 10.—Five Baltimore automobilists were instantly killed last night when an express train from the West Jersey and Seashore Railroad from Philadelphia struck a machine carrying Mr. and Mrs. Frederick W. Feldner and their son-in-law and daughter, Mr. and Mrs. Fritz Mergenthaler and their chauffeur.

The automobile tried to cross the tracks in front of the approaching train when it was struck. The machine was smashed into splinters and its five occupants terribly mangled.

JURIST KILLED.

MONTGOMERY, Ala., Aug. 10.—Judge Julius C. Richardson of the second judicial court of Alabama, one of the best known jurists in the state, was killed and two of his friends were injured in an automobile accident 15 miles from this city yesterday afternoon.

PIEDMONT TURKISH BATHS.

Salt water swim. Twenty-fourth and Oakland avenue.

CLAIMS JAPANESE
REFUSED TO HELP

Officers of Mongolia Declare
Cruiser's Crew Gave No
Assistance.

SAN FRANCISCO, Aug. 10.—The action of the officers of the Japanese cruiser Tako Kan in refusing to give assistance to the steamer Mongolia when she went ashore in the harbor of Shimon on May 15, was brought out in the testimony of Captain E. P. Kitt in the investigation yesterday by Captain Rulzer and Bolles, the United States local inspectors of boilers and hulls.

Captain Kitt testified that he was attempting to avoid a sand shoal in the harbor and, mistaking his distance, ran on a shoal on the other side. At daylight he asked for assistance from the commander of the Tako Kan, but was refused. He was compelled to wait until the 17th, when he got the Mongolia off.

He then took the steamer to the next port and found that there was no damage to the hull. There was no leak and then the vessel proceeded on her voyage.
